

# Tuition fees and payment schedule

The following list of fees is agreed for the enrolment:

	Tuition fee EURO	50% of tuition fee in case of cancellation/postponement** EURO
Fee for Processing, incl. uni-assist	375,00*	
Fee for the first semester	3.000,00	1.500,00
Fee for the second semester	2.300,00	1.150,00
Fee for the third semester	2.300,00	1.150,00
Fee for the fourth semester	---	
<b>Total Fee</b>	<b>7.975,00</b>	
<b>Each extended semester from semester 7</b>	<b>250,00***</b>	

\*For processing of the application and evaluation of all supporting documents a processing fee of 375 € is charged, due after successful pre-check. It covers all expenses for application including the handling fee at uni-assist. The final and official admission letter will not be provided before the processing fee is credited at the account of IMS.

\*\*In the case that it is not possible to attend one of the lecture weeks of the semesters 1-3 in Dessau-Rosslau 50% of the actual semester fee will still be charged and must be paid according to the due date in order to retain the right to continue studying. The remaining 50% of the respective semester fee is then due upon actual participation in the lectures of the semester.

\*\*\*The duration of the master program is four semesters, plus a feeless extension period of two semesters. In case of further extension, a fee of 250 EUR each additional semester is agreed on.

After successful enrolment we will send an invoice for the tuition fee of the first semester. Prior to the next two semesters we will send the invoices for the remaining fees. Invoices will be sent about 4 weeks prior to the start of the current active period.

The respective payments must be credited to the IMS account before enrolment in the corresponding semester. In the case of late payments, enrolment/re-activation is not possible.

All additional fees for the bank transfer need to be paid at your home credit institution. International money transfers can be expensive. For the small amounts of the admission/processing fee and/or extension fee we suggest the use of our PayPal button for this payment.

The Master course will only take place if a minimum number of 15 participants are secured. The application remains valid for the next course term. Should the applicant drop out, the processing fee will be lost.

## Why are the fees so moderate compared with other programs available?

As an institute associated with Anhalt University of Applied Sciences, we are a non-profit institute. The master program Membrane Structures (M.Eng) is hosted by a German State University. Therefore, we maintain the costs as low as possible and tuition fee is calculated only to cover the expenses. The program is designed and organised every year since 2006 without compromising the level of education, delivering the finest expertise in the field of Membrane Structures.
